

杏輝藥品工業股份有限公司
SINPHAR PHARMACEUTICAL CO., LTD.

To whom may concern:

In November 2011, we bought the complete granulation line from Nicomac Europe for production of pharmaceutical potent drugs identified in Occupation Exposure band 2/3. The full line includes the granulation, tableting and film coater as well as the powder transferring connections. The full set of equipment is fully operated and the performance is as expected.
