We would like to thank you for the quality clean room installation you provided for project Sterile solutions (1289,05 m²), New ampule department (1629,2 m²) and Notol (3130 m²) at our facility in Novo mesto. Our clients and upper management are quite impressed with the quality of the facility.

The time and effort you have spent in coordinating the integration of some of our equipment with you clean rooms and the attention paid to the fine details are greatly appreciated. Everyone is quite pleased with the quality of the finish details.

We would highly recommend you clean room system to anyone in our business or any other business looking for quality finish installations. We would also like to add that you could do this at competitive price.

It has truly been a pleasure to work with you company. We look forward to working with Nicomac on our future projects.

With kind regards,

Cvetka Žerajič
Program Manager
