Subject: Reference Letter

The following is to confirm our appreciation for the work performed by Nicomac for the Gowning and degowning Project for the Wyeth Pharmaceutical Company, Guayama Site Operations.

Nicomac showed during the entire project a proactive approach to the entire challenges of the project and especially appreciated your flexibility to both the project restrictions and the some of our "last minute requirements".

We are happy to confirm the great quality of your material together with the skills and professionalisms of your installation crew.

We look forward to working again with you and with your company for future projects and again I thank the entire Nicomac and Janser staffs for their cooperation.
